RPA Developer - Beginner Certification Test

Multiple Choice

1) Where can you see the activities that make up a workflow?

- ☑ In the Activities pane
- ☐ In the Workspace pane
- ☐ In the Outline pane

Multiple Choice

2) Where can you find the value written by the Write Line activity?

- ☐ In a variable
- ☑ In the Output pane
- ☐ At console

Multiple Choice

3) How can you install and update activity packs?

- ☐ In Package Pane
- ☑ Using Manage Packages within Activities Pane
- ☐ Using TFS

Multiple Choice

4) When should you use the Flowchart workflow?

- ☑ When having multiple activities executed in a fixed order
- ☑ When having a process with many decision blocks
- ☑ When modelling a process that has loops to previous states

Single Choice

5) Can you insert a Flowchart activity in a Sequence activity?

- ⦿ True
- ○ False

Multiple Choice

6) What is an argument?

- ☑ An input/output parameter of the workflow
- ☐ A variable
- ☐ A variable type

Multiple Choice

7) What type of argument can you define to pass data and retrieve the modified value from an invoked workflow?

- ☐ In
- ☑ In / Out
- ☐ Out

Multiple Choice

8) Which activity can be used if you want to test whether a condition evaluates to true or false?

- ☑ If activity
- ☐ For Each activity
- ☑ Flow Decision activity

Multiple Choice

9) What would you use to exit from a For Each activity and continue the execution of the workflow?

- ☐ Terminate Workflow activity
- ☐ If activity
- ☑ Break activity

Multiple Choice

10) What is the technique used to indicate an item from a popup menu that disappears on click?

- ☐ Region selection
- ☐ Delayed selection
- ☑ Element selection

Multiple Choice

11) How do you exit the selection mode?

- ☐ F2
- ☑ ESC
- ☑ Right click
- ☐ F3

Multiple Choice

12) **Which activities can be used to interact with the user?**
- ☑ MessageBox
- ☑ InputDialog
- ☐ WriteLine

Multiple Choice

13) Which recording profile generates full selectors?
- ☐ Step by step recording
- ☑ Basic recording
- ☐ Desktop recording

Multiple Choice

14) How can you fine tune a selector?
- ☐ Making sure you have an idx attribute
- ☑ Replacing variable attribute parts with *
- ☑ Adding all parents

Multiple Choice

15) How can UiPath identify an UI element on the screen?
- ☑ By using a full selector
- ☑ By using a partial selector inside a container
- ☑ By using a reference of it, previously saved in a variable

Single Choice

16) What is the Attach Window activity used for?
- ◉ To specify the top-level window container you will be working with
- ○ To specify the browser container you will be working with
- ○ Specifies that you are working with a java window

Multiple Choice

17) What should you use to make sure that the workflow continues no matter what activity fails?
- ☐ TimeoutMS property
- ☑ Try Catch activity
- ☑ ContinueOnError property

Multiple Choice

18) How does UiPath recognize elements on screen?
- ☐ Using coordinates
- ☐ Using the position of the UI elements
- ☑ Using attributes of the UI elements

Multiple Choice

19) What should you use to check if a checkbox is selected or cleared?
- ☑ Check activity
- ☑ Get Attribute activity
- ☐ A trigger activity
- ☐ Click activity

Multiple Choice

20) What is a wildcard used for?
- ☐ To get text from screen
- ☐ To select items in a list
- ☑ To replace variable values in selector attributes

Multiple Choice

21) What is UiExplorer used for?
- ☐ UiExplorer is not part of UiPath
- ☐ To explore the workflow tree
- ☑ To explore the UI tree
- ☑ To create and fine tune selectors

Multiple Choice

22) What activity can be used to read an entire sheet from a excel file?

- ☐ Read Cell
- ☐ Write CSV
- ☑ Read Range
- ☐ Get Table Range

Multiple Choice

23) What happens if the AddHeaders property is checked for the Read Range Activity?

- ☐ An exception is thrown
- ☑ The first row from the specified range is considered to be the column header
- ☐ A new row is added to the Excel sheet
- ☐ Nothing

Multiple Choice

24) What activity can you use to get a column value from a specific row of a DataTable?

- ☑ Get Row Item
- ☐ Remove Data Row
- ☐ Read Cell

Multiple Choice

25) How can you identify a column in a DataTable?

- ☑ Using the column name
- ☐ Using the row index
- ☑ Using the column index
- ☐ Using the column default value

Multiple Choice

26) How can you filter records from a DataTable based on a condition?

- ☐ Using the Clear Data Table activity
- ☑ Using the 'Select' method
- ☐ Using the Format Value activity
- ☐ Checking the condition in a For Each Row loop

Multiple Choice

27) When is it recommended to use containers?

- ☐ When performing one action per window
- ☑ When performing multiple operations in the same window
- ☐ When the Basic Recorder profile is used

Multiple Choice

28) Which activity should you use to Click on a specified text in a Citrix Environment?

- ☑ Click OCR Text
- ☑ Click Text
- ☐ Hover Text

Multiple Choice

29) What should you use to scrape tables from a web page?

- ☐ Get OCR text
- ☑ Data Scraping
- ☐ Get Text

Multiple Choice

30) How can you find all anchor elements in a web page?

- ☑ Using the Find Children activity
- ☐ Using the Find element activity
- ☐ Using the Find Relative Element activity

Multiple Choice

31) How can you automate a Citrix application?

- ☑ Using images
- ☐ Using text
- ☑ Using the keyboard

Multiple Choice

32) How can you extract text from a Citrix application?

- ☐ Using the Screen Scraping wizard with FullText method
- ☑ Using the shared clipboard
- ☑ Using Microsoft OCR

Multiple Choice

33) What text extraction method can you use to get text position?

- ☐ FullText
- ☑ OCR
- ☑ Native
- ☐ Shared Clipboard

Multiple Choice   **34) How should you organize your workflow?**

- ☐ Never break the automation into smaller pieces
- ☐ Ignore exceptions
- ☑ Use Flowchart or State Machine for a high level organization

Multiple Choice   **35) What kind of workflow should you create to define business rules?**

- ☑ Sequence
- ☑ Flowchart
- ☑ State machine

Single Choice   **36) A Click Trigger has the EventType = EVENT_SYNCHRONOUS. The activities in the Event Handler are executed before the click is sent to the application**

- ◉ True
- ○ False

Multiple Choice   **37) What should you use to click in a hidden IE browser?**

- ☐ Click text
- ☐ Cursor Position : Center
- ☑ SimulateClick
- ☐ Default click activity

Multiple Choice   **38) There is an input field with the text "abc". If you use the Type activity with the text "123" and the following Properties: SimulateType checked, EmptyField unchecked, what will be the text in the field?**

- ☐ abc
- ☑ 123
- ☐ abc123

Multiple Choice   **39) Which of the following input methods works in background?**

- ☐ Hardware event
- ☑ Window Messages
- ☑ Simulate Type/Click
- ☐ Native

Multiple Choice   **40) Which of the following activities can you use to extract text from a hidden browser?**

- ☐ Get Visible Text
- ☑ Get Full Text
- ☐ Extract Structured Data
- ☐ Get Text

Multiple Choice   **41) How many characters does "*" replace?**

- ☐ One
- ☑ Zero or more
- ☐ Zero
- ☐ More than one

Multiple Choice   **42) What is TimeoutMS property used for?**

- ☐ To make sure that the workflow continues even if the activity fails
- ☑ To define the amount of time in which the target of an activity must be found
- ☐ To define the amount of time used to execute the activity

Single Choice   **43) Is it possible to make an image automation if you are not in a Citrix environment?**

- ○ No, image automation is only for remote automation
- ◉ Yes, but should be used as last resort

Multiple Choice   **44) If you scrape some text and you know it contains only digits, how can you make the scrape better?**

☑ Use Google OCR with the "Numbers Only" option

☐ Make sure the background is dark

☐ Use Get Text for the field in the Citrix Window

Multiple Choice

45) Which of the scraping methods can get you the hidden text in the element?

☐ Native

☑ FullText

☐ OCR

☐ All of the above

Page: 1 / 1

SUBMIT (TEST COMPLETED)

☑ Use Google OCR with the "Numbers Only" option

☐ Make sure the background is dark

☐ Use Get Text for the field in the Citrix Window

Multiple Choice

45) Which of the scraping methods can get you the hidden text in the element?

☐ Native

☑ FullText
